

In the Specification:

Please amend the paragraph bridging pages 4 and 5 (page 4, line 30 to page 5, line 4) as follows:

In figure 5, the two plates 45 for ~~centring~~centering fish are shown. The fish is ~~centred~~centered by that the two plates are lowered on each side of the fish. In another embodiment the plates are moving towards each other while moving down, for ~~centring~~centering fish having different diameters. The plates can be moved simultaneously or independent of each other, dependent on the situation and embodiment of the machine they are used in.
